

SolCAP: Solanaceae Coordinated Agricultural Project
Planning Meeting
Plant and Animal Genome Conference
January 17, 2006

Draft Agenda

- Review planning and progress related to the SolCAP.
- Draft a survey for stakeholders with the purpose of clarifying and developing the trait and tool modules prioritized during the November 2005 stakeholder meeting.
- Coordinate specific tasks aimed at developing individual traits and tools modules for the SolCAP infrastructure.
- Form breakout groups based upon commodity germplasm expertise to reach consensus on personnel expertise, seek nominees or volunteers to lead coordinating efforts.
- Form breakout groups based upon technology to provide more detail on toolbox needs, seek nominees or volunteers to lead coordinating efforts.
- Nominate an advisory committee.
